

SAHIL MUSTAFA SHEIKH

sahilsheikhwork24@gmail.com | (+91) 7741956713 | GitHub:
<https://github.com/sahil-sheikh-programmer> | Chandrapur, MH

Professional Summary

Front-End Developer experienced in building scalable and responsive web applications using React.js. Proficient in JavaScript (ES6+), Redux Toolkit, and REST API integration, with a strong focus on performance optimization and clean, maintainable code. Also experienced in full-stack development using Node.js, Express.js, and MongoDB, with hands-on experience in building real-world applications.

Technical Skills

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frontend: React.js, Redux Toolkit, React Router, Bootstrap, Tailwind CSS, jQuery
- Backend: Node.js, Express.js
- Database: MongoDB
- State Management: Redux Toolkit, Context API
- API & Tools: REST APIs, Axios, Postman, JSON
- Build Tools: Vite
- AI Tools: GitHub Copilot, ChatGPT
- Concepts: Responsive Design, Component-Based Architecture, SPA, Performance Optimization
- Tools: Git, GitHub, VS Code, Chrome DevTools

Professional Experience

Softgrowth Infotech – Junior Front-End Developer

Jun 2025 – Present

- Developed and deployed a scalable task management system for 50+ users, improving tracking efficiency by 30%
- Designed responsive, mobile-first UI using React.js and Tailwind CSS
- Built reusable components and optimized performance using React Hooks (useState, useEffect)
- Implemented advanced search, filtering, and task status tracking features
- Integrated REST APIs using Axios for dynamic data rendering
- Collaborated with backend developers for API integration, debugging, and improving application performance

Projects

TrackIntern – Intern Task Management System | Softgrowth Infotech

- Implemented user authentication (login/logout) with session management using localStorage and protected routes (Private Routes).
- Built role-based dashboards including Admin Dashboard and Intern Dashboard for task monitoring and management.
- Managed application state using Redux Toolkit for efficient data handling and UI updates.
- Developed advanced search, filtering, and sorting functionality using DataTables.

- Implemented task status categorization (New, In-Progress, Completed) with real-time updates and detailed task views.

Full Stack CRUD Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Axios, Bootstrap, Vite

- Developed a full-stack CRUD application enabling users to create, read, update, and delete data efficiently
- Built responsive frontend using React.js, Bootstrap, and Vite for fast performance
- Designed RESTful APIs using Node.js and Express.js for handling business logic
- Integrated MongoDB for database management with schema-based models
- Implemented client-side routing using React Router for seamless navigation
- Tested and validated APIs using Postman
- Implemented API integration using Axios for seamless frontend-backend communication
- Structured application using MVC architecture for scalability and maintainability
- Utilized AI tools like GitHub Copilot and ChatGPT to improve development efficiency

Education

B. Tech – Computer Science

Shri Sai College of Engineering & Technology, Bhadrawati | 2022 – 2025

Diploma – Computer Science (78.57%)

Ballarpur Institute of Technology, Chandrapur | 2019 – 2022

Additional Information

- Strong interest in UI/UX design & performance optimization.
- Quick learner and passionate about writing clean, maintainable code.
- Strong problem-solving and debugging skills
